EXECUTIVE OFFICER

The Honorable Board of Commissioners
Housing Authority of the
County of Los Angeles
383 Kenneth Hahn Hall of Administration

Los Angeles, California 90012

Dear Commissioners:

**AWARD ONE-YEAR CONTRACTS TO PROVIDE COUNTYWIDE ASBESTOS AND LEAD
CONSULTING SERVICES
(ALL DISTRICTS) (3 VOTE)**

SUBJECT

This letter recommends approval of six consulting services contracts for asbestos and lead consulting services on a project-by-project basis during the rehabilitation of affordable housing throughout the County.

IT IS RECOMMENDED THAT YOUR BOARD:

1. Approve and authorize the Executive Director or his designee to execute, and if necessary, terminate one-year consulting services contracts (Contracts) with six consulting firms, identified in Attachment A, to provide asbestos and lead consulting services on a project-by-project basis during the rehabilitation of affordable housing throughout the County, using a maximum aggregate amount of \$210,000 in Housing Authority funds included in the Housing Authority's approved Fiscal Year 2010-2011 budget. The Contracts will be effective following approval as to form by County Counsel and execution by all parties.
2. Authorize the Executive Director or his designee to execute amendments to the Contracts, following approval as to form by County Counsel, as may be necessary to administer the Contracts, including but not limited to extending the contract terms for up to four additional years, in one-year increments, not to exceed the aggregate amount of \$210,000 per year, using the same source of funds, and contingent upon the availability of funds for each of the four additional years.
3. Authorize the Executive Director to increase the annual aggregate Contract amount by up to

\$21,000 for any unforeseen, needed services for each year that the contracts are in effect, using the same source of funds.

4. Find that approval of the Contracts is not subject to the provisions of the California Environmental Quality Act (CEQA) because the action will not have the potential for causing a significant effect on the environment.

PURPOSE/JUSTIFICATION OF RECOMMENDED ACTION

The purpose of the recommended action is to enter into Contracts with six consulting firms to provide asbestos and lead consulting services for the rehabilitation of affordable housing throughout the County.

FISCAL IMPACT/FINANCING

There is no impact on the County general fund.

The Contracts will be funded using an annual maximum aggregate amount of \$210,000 for all six contracts. After the first year, the Housing Authority may extend the Contracts for up to four additional years, in one-year increments, not to exceed an aggregate amount of \$210,000 per year, using the same source of funds and contingent upon the availability of funds for each of the four additional years.

A 10% contingency in the maximum aggregate amount of \$21,000 per year is also being set-aside for unforeseen costs and projects.

Funds for these Contracts are included in the Housing Authority's approved Fiscal Year 2010-2011 budget. Funds for all future years will be included for approval in the Housing Authority's annual budget process.

FACTS AND PROVISIONS/LEGAL REQUIREMENTS

The Asbestos Hazard Emergency Response Act, the National Emissions Standards for Hazardous Air Pollutants, and the South Coast Air Quality Management District have established regulatory requirements for the testing and abatement of asbestos. The U.S. Department of Housing and Urban Development (HUD) has established requirements for the reduction of lead-based hazards in federally assisted projects. In addition, the Toxic Substances Control Act, the federal Occupational Health and Safety Administration, the California Code of Regulations, and the California Environmental Protection agency have established regulatory requirements for the testing and abatement of lead.

The proposed Contracts define the asbestos consulting services to be performed by the six consulting firms identified in Attachment A. Over the initial one-year term, as required during the development and rehabilitation of affordable housing, commercial and other facilities, the firms will conduct the following activities: asbestos surveys; project design and monitoring (including review of construction contract documents, plans and specifications); limited (component-specific) sampling; abatement feasibility studies; pre-abatement (baseline) testing; cost estimates; on-site abatement monitoring during construction; clearance testing; and waste handling and disposal.

The proposed Contracts also define the lead abatement consulting services to be performed by the six consulting firms identified in Attachment A. Over the initial one-year term, as required during the development and rehabilitation of affordable housing, commercial and other facilities, the consulting firms will conduct the following activities: lead-based paint inspections; risk assessments; hazard assessments; limited sampling (component-specific); soil sampling; pre-abatement (baseline) testing; abatement project design and monitoring activities (including review of construction contract documents, plans and specifications); cost estimates; and clearance testing.

The one-year Contracts may be amended to incorporate specific sites and detailed statements of work for each project. The Contracts may also be amended to extend the time of performance for a maximum of four years, in one-year increments, and to include additional projects and compensation, not to exceed the total aggregate funding approved for the Contracts.

The consulting firms will be assigned projects on a project-by-project basis and will receive compensation based on the statement of services performed. The addition of projects to each Contract will be determined based on site needs, qualifications of the consulting firm in the various aspects of the testing process, and the complexity of the assignment. Each firm's cost of services will not exceed the costs accepted on the Cost Sheet submitted with its proposal in response to the Request for Proposals, or the negotiated dollar amount for individual asbestos or lead assignments or work programs.

Should any of the consulting firms identified in Attachment A require additional or replacement personnel during the term of the Contracts, they will give consideration for any such employment openings to participants in the County's Department of Public Social Services' Greater Avenues for Independence (GAIN) Program and General Relief Opportunity for Work (GROW) Program who meet the minimum qualifications for the open positions. The consulting firms will contact the County's GAIN/GROW Division for a list of participants by job category.

County Counsel has reviewed this letter. On January 26, 2011, the Housing Commission recommended approval of the proposed contracts.

ENVIRONMENTAL DOCUMENTATION

This action is exempt from the provisions of the National Environmental Policy Act pursuant to 24 Code of Federal Regulations, Part 58, Section 58.34 (a)(3) because it involves administrative activities that will not have a physical impact or result in any physical changes to the environment. This action is not subject to the provisions of CEQA pursuant to State CEQA Guidelines Sections 15060(c)(3) and 15378, because it is not defined as a project under CEQA and does not have the potential for causing a significant effect on the environment.

CONTRACTING PROCESS

On September 29, 2010, the Housing Authority conducted a Request for Proposals (RFP) to identify firms to provide asbestos and lead consulting services. The RFP announcement was sent to approximately 209 consulting firms identified from the Housing Authority's vendor list. The RFP was released on September 29, 2010, and was posted on both the County and the Housing Authority websites. One hundred and fifteen RFP packages were downloaded from the Housing Authority's website.

Twenty-two proposals were received by the October 21, 2010 deadline. One proposal did not meet the minimum requirements and was disqualified. The twenty-one proposals that met the minimum requirements were forwarded to a three-member evaluation panel for further review. The evaluation committee used the "informed averaged" scoring methodology using a 1,000 points system as established in the solicitation package. The evaluation criteria consisted of qualifications (experience, background, references, etc.) approach to providing the services. The top six ranked proposers are being recommended for the Contract award.

The Summary of Outreach Activities is provided as Attachment A. The standard form of the Contracts is provided as Attachment B.

This hearing shall be conducted and the request for review decided by the Contractor Hearing Board pursuant to the same procedures as for a debarment Hearing.

The Contractor Hearing Board's proposed decision shall contain a recommendation on the request to reduce the period of debarment or terminate the debarment. If Contractor uses any subcontractor to perform services for the Housing Authority under the Contract, the subcontractor shall also be subject to the provisions of this Section. The provisions of this Section shall be inserted into any such subcontract Contract and a copy of the Jury Service Program shall be attached to the Contract.
- C. If the Contractor is not required to comply with the Jury Service Program when the Contract commences, Contractor shall have a continuing obligation to review the applicability of its "exception status" from the Jury Service Program, and Contractor shall immediately notify Housing Authority if Contractor at any time either comes within the Jury Service Program's definition of "Contractor" or if Contractor no longer qualifies for an exception to the Program. - The method to be used to monitor work performance
- The fees/deductions to be assessed for each service that is not satisfactory

All listings of services used in the PRS are intended to be completely consistent with the Contract and the SOW, and are not meant in any case to create, extend, revise, or expand any obligation of the Contractor beyond that defined in the Contract and the SOW. In any case of apparent inconsistency between services as stated in the Contract and the SOW and this PRS, the meaning apparent in the Contract and the SOW will prevail. If any service seems to be created in this PRS which is not clearly and forthrightly set forth in the Contract and the SOW, that apparent service will be null and void, unless agreed upon in writing, and place no requirement on the Contractor.

When the Contractor's performance does not conform to the requirements of this Contract, the Commission/Housing Authority will have the option to apply the following non-performance remedies:

- Require the Contractor to implement a formal corrective action plan, subject to approval by the Commission/Housing Authority.
